

about us

Cabinets Plus is a locally owned company with over 10 years of experience in the kitchen and bathroom industry. Over the years, many of our customers began asking if we could help give their existing cabinets a fresh new look instead of replacing them completely.

That demand inspired us to expand into cabinet refinishing and resurfacing. Everything we do is handled in-house by our team, allowing us to stay involved in every step of the process and create results that feel personal, warm, and tailored to each home. We're excited to bring new life to old kitchens while helping homeowners keep the spaces they already love.
