CABINETS CONSTRUCTION

Built to handle everyday life, our cabinets are made with durable materials that stand the test of time. Every cabinet features a sturdy 1/2" plywood box, a 3/4" solid wood face frame, and 3/4" plywood shelves for dependable strength. Solid wood dovetail drawers paired with steel soft-close drawer glides provide smooth, quiet operation, while 6-way adjustable soft-close hinges ensure doors align perfectly and close gently. Even the 1/2" plywood toe kick is built for lasting durability, giving your cabinetry a solid foundation from top to bottom.

QUARTZ THAT WE OFFER

We make it easy to bring your vision to life with custom natural stone and quartz surfaces designed around your space. Through our trusted stone partners, you can hand-select full slabs of granite, quartzite or marble to match your vision. For a more cost-effective option, we offer **our square footage program** — designed to help you **pay only for what you use**. This approach eliminates the added cost of unused material and reduces waste. With over 50 quartz options available in this program, you can achieve a high-end look while staying on budget.

OVER 50 SLABS TO CHOOSE FROM

Every slab is available through
our Square Foot Program – pay only
for the material your project needs

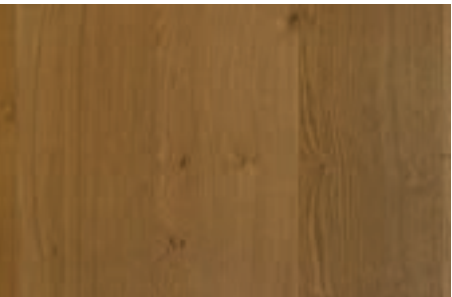

FLOORING

We partner with top flooring manufacturers to offer a wide selection of styles, colors, and materials. No matter what flooring you have in mind, we can source it for your project

ANY FLOOR YOU CHOOSE – WE CAN PROVIDE

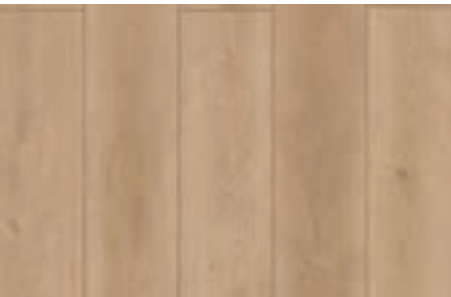

HARDWOOD

- Timeless look, adds value, long lifespan
- Consider:** Sensitive to moisture, requires maintenance

ENGINEERED HARDWOOD

- Real wood look, more stable with humidity, versatile installation
- Consider:** Limited refinishing compared to solid hardwood

LVP / LVT / SPC / WPC

- Waterproof, highly durable, budget-friendly, great for busy homes
- Consider:** Not as natural-feeling as real wood

LAMINATE

- Affordable, scratch-resistant, easy to maintain
- Consider:** Not waterproof, can feel less premium

CARPET

- Soft, warm, comfortable great for bedrooms
- Consider:** Requires more upkeep, less ideal for high-traffic or wet areas

GLUE-DOWN LVP

- Waterproof, highly durable, realistic wood look, low maintenance
- Consider:** Difficult to remove or replace individual planks, requires a well-prepared subfloor

PERSONAL APPROACH

Not sure which option is right for you?

Our experienced consultants will walk you through every detail – from durability and maintenance to design and budget – so you can feel confident in your choice.

OUR PROCESS

1. EXPLORE YOUR VISION

Planning a kitchen or bathroom remodel? Start by browsing cabinet styles, countertop materials, and flooring options in our Spokane showroom. Our experts help you match colors, finishes, and designs that fit both your aesthetic vision and real-world budget. Bring photos, measurements, or just ideas—we'll guide the rest.

2. FREE DESIGN CONSULTATION & PRECISE MEASUREMENTS

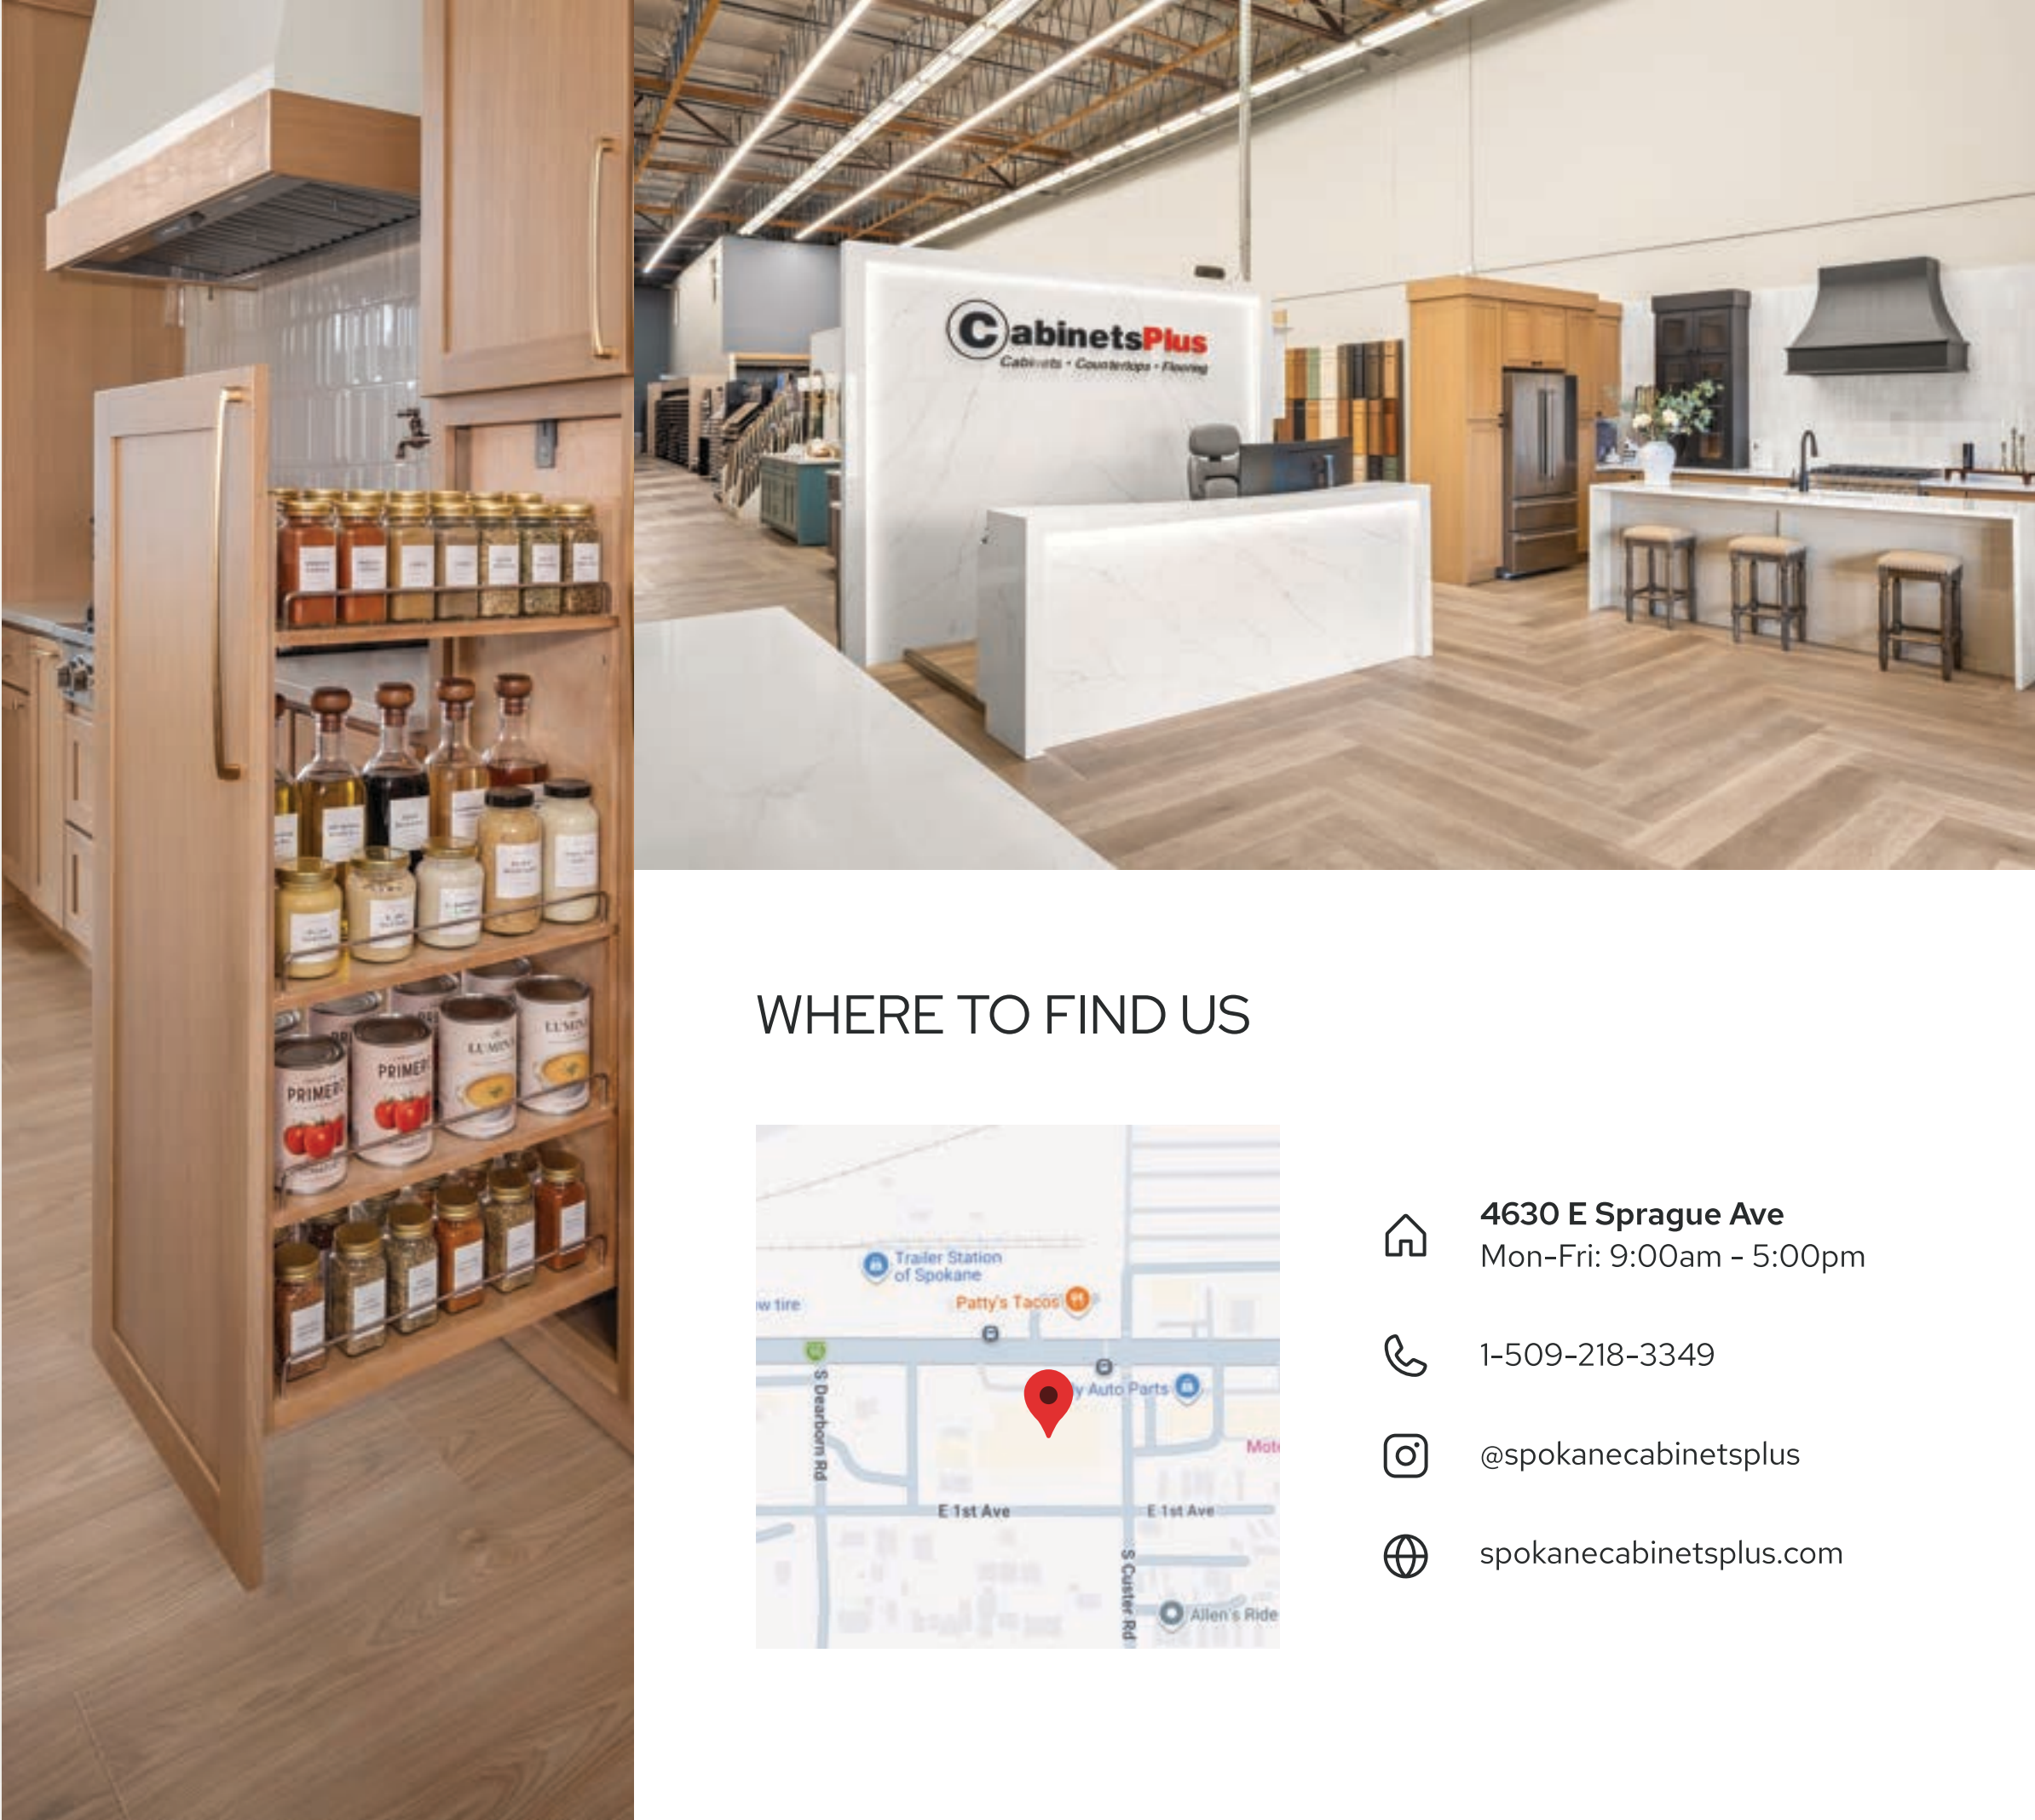

Meet with our design team to select the perfect semi-custom cabinets, granite or quartz countertops, and flooring that works for your space. We take precise measurements, discuss installation timelines, answer questions about materials, and create a detailed project plan. You'll leave with 3D renderings and a clear quote.

3. PROFESSIONAL INSTALLATION

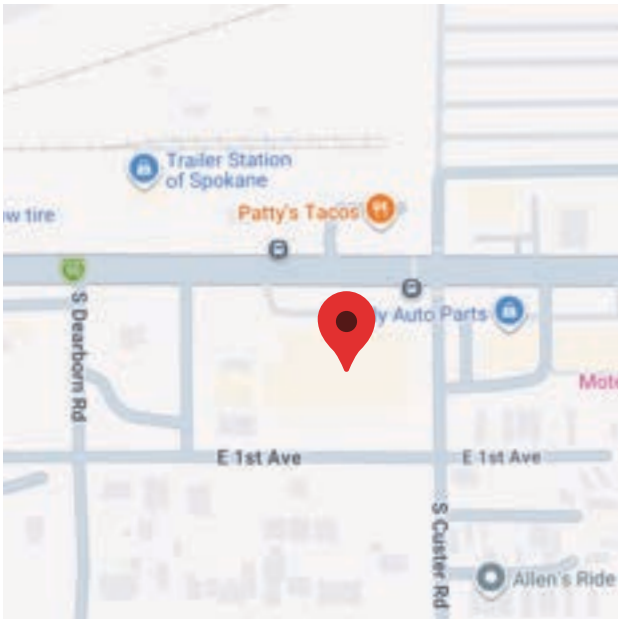

Our experienced team handles full cabinet and countertop installation from start to finish. We fabricate and cut stone in-house for perfect fitment. Prefer to DIY? We provide guidance and support. *(Note: we currently specialize in cabinet and countertop installation—flooring is available for pickup or delivery.)*

4 ENJOY YOUR TRANSFORMED SPACE

Installation complete! Now enjoy your beautifully remodeled kitchen or bathroom featuring quality semi-custom cabinetry, stunning stone countertops, and premium flooring that elevate your home's style and value for years to come.
